The ENP Reference Manual has been developed to help prepare you for the exam, but also contains valuable information. While every effort has been made to include up-to-date information, the reference manual is not intended to be all-inclusive. With the many technological and legislative changes taking place in the field of public safety, you will need to use other study resources (a list is included in the appendix). The cost of the ENP Reference Manual is \$30 per copy.

Name _____
