Threat and Risk Assessment (Local Jurisdiction)

**January 31–February 2, 2006
8 a.m. to 5 p.m.**

***There is no tuition for this training.
There is a maximum of 10 people per agency. Space is limited.
Registration ends on January 17, 2006.***

Who Should Attend?

The 24-hour course is a WMD Planning/Management Level program that will prepare the multi-discipline team of emergency responder managers and community leaders from the private and public sectors to prevent, respond to, or recover from a Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE)/terrorism incident. The following emergency responder disciplines/functional areas should be involved in the class:

- Public Safety Communications
- Law Enforcement (County, City, State and Federal)
- Fire Services
- Emergency Management
- Emergency Medical Services
- Hazardous Materials Response Agencies
- Governmental Administration (County, City, State and Federal)
- Health Care
- Public Health
- Public Works
- Business and Industry - Risk Management and Loss Control
- Private Security Agencies
- Architects
- Engineers

Course Overview

This Planning/Management level course prepares emergency responder managers and community leaders to conduct a comprehensive Threat and Risk Assessment for a Weapons of Mass Destruction (WMD)/Terrorism Incident. The course delivery combines lecture, small group discussions, participant activities, and multimedia scenarios to improve the emergency team's capability to prevent, react to, or recover from a terrorism incident. At the conclusion of the training, the team is able to:

- Use the Office of Domestic Preparedness (ODP), Department of Homeland Security (DHS) for WMD Assessment model to enhance decision making, planning, and teamwork
- Identify and evaluate Potential Threat Elements and WMD in the area
- Conduct basic and agricultural vulnerability assessments and identify capabilities to meet needs
- Prioritize needs into one of five solution areas – planning, organization, equipment, training, and exercises.
